PROFESSIONAL SUMMARY:

- Full Stack Java Developer with 4 years of experience in building and maintaining scalable web applications across multiple industries, including finance, travel, and technology.
- Strong proficiency in Java, Spring Boot, Hibernate, Angular, React, and microservices, with expertise in developing RESTful APIs, improving system performance, and ensuring efficient data handling.
- Extensive experience with front-end and back-end technologies such as HTML, CSS, JavaScript, MySQL, PostgreSQL, AWS, Docker, and Kubernetes, utilizing modern CI/CD tools like Jenkins and Maven.
- Proven track record of integrating security features like OAuth2 and JWT, and using messaging systems such as Kafka to support real-time data processing and system scalability.
- Skilled in Agile development methodologies, unit testing with JUnit, and version control using Git, with a strong focus on collaboration and delivering high-quality, reliable software.
- Open to relocation and excited to contribute to innovative projects by applying my technical skills, industry experience, and problem-solving abilities in a dynamic work environment.

TECHNICAL SKILLS:

Languages	Java, Python, SQL, C/C++, Node.js, JavaScript, HTML5, CSS3
Java/J2EE Technologies	Core Java, JSP, Servlets, JavaBeans, J2EE, Java Microservices, Spring, Spring Boot, Spring Security, Spring JPA, OAuth2
Web Technologies	HTML, XML, CSS, JSON, TypeScript, RESTful APIs, jQuery, AJAX
Web Frameworks	Angular, React, JavaServer Faces, Bootstrap, Hibernate
Design and GUI Tools	Eclipse, IntelliJ IDEA, RStudio
Application Servers	Apache Tomcat, AWS (EC2, RDS, Lambda)
Databases	PostgreSQL, MySQL, MongoDB, Cassandra, Oracle
Embedded Systems	Embedded C, Arduino, Raspberry Pi
Methodologies	Agile, Scrum, Waterfall
Testing Tools	JUnit, VersionOne
Build and CI/CD Tools	Maven, Gradle, Jenkins
Containerization Tools	Kubernetes, Docker
Data Streaming	Apache Kafka, RabbitMQ
Logging and Monitoring	Log4j, Elasticsearch
Operating Systems	Windows, Linux

PROFESSIONAL EXPERIENCE:

Client:Sofi, NY

Sept 2023 – Current

Role: Full Stack Java Developer

Responsibilities:

- Authored backend solutions using Java and Spring Boot, ensuring optimal performance and scalability.

- Authored RESTful APIs that served dynamic data to the JavaScript front end, efficiently handling over 200,000 concurrent users.
- Reviewed and tested three additional features, resulting in a 10% increase in user contributions.
- Collaborated with project managers to re-architect a multi-page web application into a single-page application, significantly boosting annual revenue.
- Developed and enhanced front-end and back-end components using Java 8, Spring Boot, Angular, HTML, and CSS to improve overall functionality.
- Created customer-facing features in Java and Spring Boot to enhance wealth management applications and drive user engagement.
- Enhanced existing APIs and developed new ones using Spring Boot, AngularJS, Node.js, and Kafka to meet evolving project requirements.
- Optimized AngularJS components, applying best practices to improve application performance and user experience.
- Integrated React/React Native components to further enhance application functionality and responsiveness.
- Leveraged AWS Lambda and JDBC for efficient data processing, integrating with databases using Hibernate.
- Facilitated the migration of applications to AWS, ensuring seamless transition and improved scalability.
- Acquired proficiency in developing comprehensive test plans using Selenium WebDriver for robust manual and automated testing.
- Participated in the implementation of authentication methods with Amazon Cognito, exploring OAuth techniques to strengthen security.

Environment: Java, Spring Boot, RESTful APIs, Angular, JavaScript, HTML, CSS, JDBC, Hibernate, AWS, OAuth, Node.js, Kafka, AngularJS, React, React Native, PostgreSQL, Selenium WebDriver, XML, JSP, NetBeans, Swagger, Atlassian Bamboo, Log4j, Jira, SOAP, WSDL, Git, Maven, Gradle, Docker, Kubernetes, Microservices, Elasticsearch, Redis, Thymeleaf.

Client: Delta Airlines, Atlanta, GA

July 2021 – May 2023

Role: Full Stack Java Developer

Responsibilities:

- Developed and maintained high-performance APIs using Java, Spring Boot, and MySQL to ensure seamless integration with internal systems.
- Led a project leveraging REST APIs to interface with external systems, including Amex, ensuring smooth data exchange.
- Conducted in-depth debugging and unit testing within an Agile framework, ensuring high-quality software delivery.
- Utilized Jenkins for CI/CD pipelines, automating build, test, and deployment processes for faster development cycles.
- Designed and implemented full-stack solutions using Java, React, Spring, HTML, CSS, and Bootstrap.
- Built and optimized RESTful APIs, enhancing system efficiency and enabling smooth data access across platforms.
- Integrated Kafka for message-driven architecture, ensuring real-time data processing and system scalability.
- Deployed and managed cloud-based solutions on AWS and Azure, optimizing application performance and scalability.

Environment: Java, Spring Boot, MySQL, REST APIs, Agile, Jenkins, React, HTML, CSS, Bootstrap, Kafka, AWS, Azure, Hibernate, Microservices, Git, Maven, Docker, SQL, JUnit, Elasticsearch, Kubernetes, PostgreSQL, Oracle

Client: Conserve Innovations, Atlanta, GA

June 2020 – July 2020

Role: UX Intern

- Executed unit testing with JUnit to maintain high code quality and reliability across applications.
- Created design mockups and wireframes for enhanced user experiences.

- Utilized Adobe XD to develop UI/UX designs based on project requirements.
- Collaborated on designing visually engaging interfaces with a focus on usability.
- Translated client specifications into intuitive design solutions.
- Assisted in the design process through iteration and feedback analysis.

Environment: JUnit, Adobe XD, Figma, Sketch, HTML, CSS, JavaScript, React, Bootstrap, Git, Agile, Jira

EDUCATION:

- Bachelor of Science in Computer Science with a concentration in Human-Computer Interaction | Georgia State University, Atlanta, GA | Dec 2020
